

PHILIPPINE HEART CENTER

## BULLETIN

**September 4 – 10, 2020**

"I keep **six** honest serving men,  
They taught me all I knew;  
Their names are What and Why and When,  
And How and Where and Who.."  
~ Rudyard Kipling

**Six!** We are six months into the World Health Organization proclaimed COVID-19 pandemic. Six months since the government declared a health emergency and subsequently, a state of calamity in the country. Six months since we have had a large gathering of sorts and enforced community quarantine. Although we have yet to see a flattening of the curve there is much we know now about the disease than before. What it is, when we contract it, how it manifests and spreads, who are likely to catch it and where.

Why this is happening is a tougher multifaceted question to answer. Although we do not know the exact answer, we see how God has worked through all of these to heighten our awareness of His presence and of our dependence upon Him in prayer. We also see and hear of selfless service that shines His love to others during this seemingly dark time.

We may not know when this will exactly end and so we prayerfully strive to practice a healthy lifestyle and adhere to the **three W's**: **W**ear a mask (and face shield), **w**atch our distance and **w**ash our hands often. We also **w**ait.

***"Be strong, and let your heart take courage, all you who wait for the LORD!"  
Psalm 31:24***

At the PHC home front there has been a noticeable decline in the total COVID Care Census for the past four weeks, from seventy-nine (79, August 13 Bulletin), to sixty-six (66, August 20 Bulletin), sixty-three (63, August 27 Bulletin), fifty-five (55, September 3 Bulletin), and thirty-eight for the past week.

For September 10, 2020, we have a **total COVID Care Census of thirty eight (38) patients. Twenty five (25) confirmed, seven (7) suspects and six (6) probable COVID cases.** This includes nine (9) PHC Staff.

To date there are **two hundred seventy three (273) recovered COVID patients** while **thirty four (34) patients expired.**

**Total Covid Care Census for September 10, 2020**

Classification	Total	PHC	Non-PHC
<b>Confirmed</b>	25	5	20
<b>Suspect</b>	7	2	5
<b>Probable</b>	6	2	4

<b>Mortality to Date</b>
Total =34

<b>Total Number of Recovered Patients</b>
Total = 273

“Sure I must fight if I would reign;  
 Increase my courage, Lord;  
 I’ll bear the toil, endure the pain,  
 Supported by Thy Word.”  
 ~Isaac watts
